LEARN REAL LEADERSHIP:

The proven intellectual capital that helped build a five-time #1 Best Place to Work. Enrich your professional network and become a better leader!

PROGRAM OVERVIEW

Leadership and Culture

Setting the stage for the rest of the training program, we will examine some of the foundational understandings and insights that are used by exceptional leaders to win the war for talent and achieve lasting business success.

Recruitment and Selection

All companies want to be populated by employees who combine great talent with outstanding character traits and to then place those individuals in positions where they can excel. BetterCulture's recruiting insights and easy-to-remember diagnostic tools will help you achieve this crucial goal.

Building Stars

Star employees are created by outstanding leaders who know how to use the power and influence inherent in their position to develop an otherwise ordinary employee. BetterCulture will show you how supervisors can better accomplish this most exciting and rewarding aspect of leadership.

Instilling Pride and Ownership

Great companies are populated by employees who feel a deep sense of pride and ownership in their company. Such employees will demonstrate loyalty, and the quality and quantity of their work production will be outstanding. This section reviews specific techniques that you can use to infuse staff members with a greater sense of personal investment in their work.

Compensation

The fundamental nature of the relationship between an employer and employee is an exchange, i.e., the employee's labor and expertise in return for monetary compensation from the employer. The nature and process of this exchange is one of the most powerful tools an employer holds for shaping employee behavior and attitude. BetterCulture will cover both theory and concrete examples of different approaches to compensation that have been shown to positively impact employee satisfaction and loyalty, as well as the organization's overall cultural health.

Workplace culture is a priority for businesses in our community, so we're thrilled to be a program sponsor and have this premier event offered right here in Greater Omaha. This goes beyond traditional development – BetterCulture will challenge, engage, and inspire even the most experienced leader. Attend and discover a new layer of brilliance to the way you'll manage and lead."

- Heath Mello

President & CEO
Greater Omaha Chamber

If you want to build a great culture and have an engaged workforce, it starts with great leaders. We have been fortunate to utilize BetterCulture to further develop our leaders, and I highly recommend their training. BetterCulture teaches leadership principles that you want everyone, regardless of how long they have been a leader, to be well versed in."

- Curt Becker
Chief Financial Officer
American National Bank

I have had the opportunity to attend a number of leadership training seminars. Without hesitation, I would endorse the MindSet Leadership Program as one of the best I have ever attended."

- Cindy Powers, SPHR, SHRM-SCP
Chief Administrative Officer
Seldin Company

Decision-Making

Few things are more basic to business success than responsive and capable decision making. This section of the MindSet Leadership Program will teach you potent decision-making techniques and processes that leaders use to generate first-rate conclusions, as well as some of the more common decision-making pitfalls that lead to poor outcomes.

Mastering Conflict

Leadership often brings with it the challenge of managing conflict, and for many this constitutes their single greatest source of stomach acid and professional disaffection. BetterCulture can be used to train leaders throughout your system to more accurately diagnose and effectively (and sometimes proactively!) manage a variety of conflict situations.

Dealing with Problem Employees

Almost every company has a noticeable bottom 10% – those employees who contribute little to the company's success while making life miserable for leaders and colleagues alike. Competent leaders must possess the knowledge to identify, engage, control, improve, and (if necessary) remove these employees. BetterCulture will explain many useful insights and techniques that outstanding leaders use to effectively deal with these cultural poisons.

Team Chemistry

Even the best teams will occasionally become dysfunctional for a variety of reasons, and they seldom right themselves without the intervention of competent and purposeful leadership. In this section, BetterCulture provides insights and specific techniques that can be used to diagnose and treat lousy team chemistry.

The BetterCulture Toolbox:

TESTED TECHNIQUES THAT WORK!

In addition to learning scores of leadership insights, the MindSet Leadership Program will equip you with an array of more than 30 practical tools, instruments, and processes designed to allow you to make an impact on your organization. Here are just some of the tools you will acquire:

- ✓ How to better predict who has the potential to be a successful supervisor
- ✓ How to create a dynamic career ladder program for select employees
- ✓ A step-by-step process that will help supervisors improve their ability to conduct difficult employee conferences
- ✓ The power of active listening and how you can become a skilled coach for others
- ✓ A demotion process that will maximize the likelihood of successful change
- ✓ How to design and implement an effective mentorship program
- ✓ Specific steps you can take to make any bonus program more impactful
- ✓ Three steps that can help you win any wrongful discharge hearing
- ✓ The BetterCulture Team Assessment tool: 15 measures that will give you a valid reading on the cultural health of any given work group
- ✓ And many more...

Attract, Build, Motivate, and Retain Great People

The MindSet Leadership Program is the one leadership training program that I have ever gone through that I thought had real value. BetterCulture did not just focus on management tricks to squeeze more out of my team, but on making me into a better person and helping my team members to be better people."

- Brad Burgess

VP of Enterprise Technology Solutions
